

Joaquin Haro Filippon

Salesforce Administrator & Developer

Esquel, Argentina, +54 9 2945 699379, joaquinharofilippon@gmail.com, LinkedIn, GitHub, Trailblazer

PROFESSIONAL SUMMARY

Salesforce Administrator & Developer with over a year of hands-on CRM delivery, built on a decade of customer and technical support. Delivered Salesforce implementations for real clients, maintained platform data integrity in production, and authored the 167-page Marketing Cloud Next implementation procedure used by a consulting delivery team. Strong foundation in Flows, custom object architecture, SOQL, reports, and dashboards, plus Marketing Cloud Next and Data 360. Comfortable with modern AI tools.

CERTIFICATIONS

- Salesforce Certified Associate.
- Marketing Cloud Essentials, Level 1, Orange Academy.
- Marketing Cloud Essentials, Level 2, Orange Academy.

- Tools & AI: GitHub, VS Code, Agile/Scrum, Trello, Notion, Obsidian, Slack, Claude, ChatGPT, Gemini, NotebookLM.
- Web & Documentation: HTML, CSS, JavaScript, Web Design, Information Architecture, Technical Writing & Operating Procedures.

PROFESSIONAL EXPERIENCE

Marketing Cloud Consultant, Esphera Consulting (Remote)

June 2026 - August 2026

- Authored the end-to-end Marketing Cloud Next implementation procedure used by the delivery team: 167 pages, 13 sequential chapters and 3 annexes, contrasted against official Salesforce documentation.
- Documented Data 360 enablement, Data Kits and Data Streams, DLO-to-DMO mapping, and Identity Resolution rulesets.
- Specified email domain authentication (SPF, DKIM, DMARC) and IP warm-up, the WhatsApp channel via WABA and Meta templates, and consent handling through Preference Manager.
- Defined a five-level decision classification separating product requirements, implementation-route requirements, project decisions, and recommendations.

- Built a go-live protocol around a controlled first microcohort, with named owners, stop criteria, exit criteria per chapter, and an auditable implementation log.

Salesforce Administrator, InCompany (Remote)

November 2025 - May 2026

- Audited and corrected record data across multiple Salesforce objects, resolving field inconsistencies and duplicate entries to restore data integrity for production reporting.
- Designed and deployed custom objects and fields to model quoting and operational workflows.
- Restructured Account page layouts for sales and ops teams, grouping fields by workflow stage.
- Wrote end-to-end documentation for a production quoting system.
- Executed complete metadata localization into Spanish across custom labels, field names, and UI components.

Salesforce Developer & Administrator, CloudAvengers (Remote)

November 2024 - April 2025

- Worked for a Salesforce architect and partner operating in the U.S., with teams in India and Latin America.
- Built and maintained custom data architecture across a client Salesforce org.
- Designed and delivered a reporting and dashboards layer for client stakeholder visibility.
- Implemented and tested platform automations using Flows within a two-week Agile sprint cadence.

Independent Technical & Customer Support (Self-employed), Esquel, Argentina

2016 - present

- End-to-end technical and customer support to individuals and small businesses, sustaining a referral-based client base for nearly a decade.

Computer Technician & Customer Support, Infinitech, Esquel, Chubut

June 2017 - August 2021

- Front-line customer service and technical support in a repair shop for notebooks, PCs, and gaming consoles.
- Managed my own projects from quote to delivery: IT installations for local businesses and custom PC builds.
- Set priorities and deadlines for the shop's repair work.

SALESFORCE PROJECTS (BOOTCAMP)

Salesforce Implementation Project, CloudConsulting

April - May 2023

- Delivered a project management application on Salesforce for a real client, in a 3-person Scrum team running 2-week sprints, 6-week delivery window.

E-Learning Platform, Salesforce Configuration Project

April 2023

- Designed and configured a Salesforce-based e-learning org, with Profile/Permission Set architecture for role-based access.

EDUCATION

- Pareto Talent Bootcamp: AI, systems and operations for U.S. founders (September - October 2026, in progress).
- Salesforce Developer Bootcamp, 800+ hours, Plataforma 5 - CloudGaia (February - May 2023).
- Introductory Salesforce Course, Plataforma 5 - CloudGaia (November 2022 - January 2023, 54 hours).

LANGUAGES

- Spanish: Native.
- English: C1 Advanced. EF SET 90/100 (2026).
